

April 4, 2025

To Whom It May Concern,

I am pleased to write in support of Ivan Chung's application for employment, particularly in the field of data analytics. As Ivan's instructor in his final capstone course within the Applied Data Analytics Certificate program at BCIT, I had the opportunity to observe his performance and capabilities firsthand.

Throughout the course, Ivan demonstrated strong analytical skills while working on assignments and projects related to statistics and machine learning. He consistently produced high-quality work and maintained an above-average grade.

Ivan has consistently demonstrated his ability to manage his workload both academically and professionally. Ivan has good initiative and completes his work with integrity. I especially appreciated Ivan's self-driven approach and decision making. He is a positive contributor to the class through his upbeat participation in discussions and activities.

Ivan's polite and technically focused nature, combined with his clear communication and reliability to follow through make him a worthy candidate for serving in an analyst role within any sector.

I am glad to provide additional information if you would like to discuss Ivan's suitability further.

Sincerely,

A handwritten signature in black ink, appearing to read "Pat McGee".
